

Name of Lesson: “When I Grow Up, I Want To Be...”

<p>Overview & Purpose: Students will create a visual image of the life and career they imagine they could have in the future.</p>	<p>21st Century Skills Addressed: Learning and Thinking Skills, Communication, Artistic Expression.</p>	
<p>Objectives:</p>	<p>Students will express themselves artistically through the use of the Kidpix Deluxe program on the computer. They will create a visual image of the life or career they imagine they will have when they grow up. They will get to know themselves and others and learn to appreciate the goals and diversity of other students.</p>	<p>Materials Needed: Computer Kidpix Deluxe software program.</p>
<p>Information:</p>	<p>This lesson will incorporate writing, communication, and artistic skills. Students will create a KidPix Deluxe captioned drawing of the career they would like to have in the future. They will label the drawing with pertinent information. Students will present their drawings and ideas to the class.</p>	
<p>Activity:</p>	<p>Using the KidPix Deluxe software program, students will create an image of the setting of the career they would like to have when they “grow up.” The drawing should include people, objects, animals, etc... that the students would need to have in order to enjoy the desired career. The items will be captioned (if students can read and write) in order for others to know what they are. The students will title their work with the caption, “When I Grow Up I Want To Be...” in large type. Students will use their imaginations to design the rest of the picture.</p>	<p>Other Resources:</p>
<p>Summary:</p>	<p>Students can have fun, and learn while using KidPix. They will also develop computer skills.</p>	
<p>Assessment:</p>	<p>A teacher-made rubric should be used for assessment and should be discussed at the beginning of the project.</p>	<p>Additional Notes:</p>
